Dapayk - *Songs Make Money*

ORAC18

12" vinyl

street date: December 12, 2005.

Cheeky stuff from Dapayk of Mo's Ferry fame on this, his first guest appearance on Orac. Twisted dark and funny techno caught somewhere between the spaciness of a Captain Comatose and M. Mayer in his pumping techno-disco mode. Caro turns down the speed a bit and turns up the creepiness in his solid disco version with Real Casino Sounds™! But wait, there's more! The B-Side track, Sutterluety, is slithering techno weirdness which we have to say makes this release thoroughly Oracian in outlook. Songs Make Money™! Order now!

A1 - Songs Make Money
